A GLASS OF FLEIN

Flein is varietal grape juice of the highest quality. Three wine-growers from the Alpine region, all of them long-time friends, refine their region-typical grape varieties into juices which open up new dimensions of taste - either as an aperitif or food companion.

The grapes for Flein are grown in steep-sloped vineyards and are cultivated and harvested by hand, especially for the production of our juices. Gently pressed like champagne and pasteurised using the latest technology, Flein enables variety-typical aromas. Flein comes with a surprising freshness, elegance, and lively acidity.

GELBER MUSKATELLER

Gelber Muskateller is one of the oldest grape varieties at all. The grape is usually broad-shouldered. Fleshy, round berries. Prefers warm vineyards. Aromatic and spicy with typical muscat flavor.

FOOD PAIRING

Aperitif, savory pastries, asparagus, grilled scallop, oysters, quiche, cream cheese, wild garlic gratin, dessert creations, etc.

JUICE DESCRIPTION

Golden yellow in the glass. Clear fruit aromas and floral notes form a bouquet that recalls mint, lychee and elderflower. Fresh and animating acidity, lavender and ripe mirabelle plums join in, dancing through the long finish. Pure enjoyment!
